2000 LIGHT-YEARS OF DARKNESS

Tell me can my eyes betray me?

Do they say how happy i feel

When no one takes the seat beside me

On the bus and make a fuss?

- Then im easy

To go away, take a train, go astray

- Disappear into the unknown

To a place where your always

All alone

Take a look into my eyes

2000 light-years of darkness

Take a look into my eyes

200 miles of black woods

Take a look into my eyes

2000 light-years of darkness Youll see

My eyes, your eyes

Father and son

Our thoughts will be one

Connected in souls

Together at last

- In the same black hole

One day you wont know my name

You will go and

Not come back again

I assume

It will bring me great pain

But at least

Ill know where youre staying

Cause you and i

Got a way to go astray

- Disappear into the unknown

To a place where were always all alone

Take a look into my eyes

2000 light-years of darkness

Take a look into my eyes

200 miles of black woods
Take a look into my eyes
2000 light-years of darkness You'll see
My eyes, your eyes
Father and son
Our thoughts will be one
Connected in souls
Together at last
- In the same black hole

In my eyes, in your eyes
In our 2000 light-years of darkness
In my eyes, in your eyes
In our 2000 light-years of darkness
