

Ark, The "Get it right"

Visit "[Get it right](#)" on MotoLyrics.com

Joy is the place that keeps me in pace with life
Throw me a line and I'll reach you out there in time
He you call hollow is he who has nothing to hide
So bring me alive 'cause I've started to feel the light

Is there a light, is there a light
Ooooh, let's get it right, and let it shine
Is there a light, is there a light
Ooooh, let's get it right, must get it right
Is there a light, is there a light
Ooooh, let's get it right, and let it shine
Is there a light, is there a light
Ooooh, let's get it right, must get it right

My body's not holy, and my will is not law
Been playing around with illusions since I was four
And if you say go we can go all the way to the core
So don't bring me down, saying life is a front in a bar

Is there a light, is there a light
Ooooh, please get it right, and let it shine
Is there a light, is there a light
Ooooh, must get it right, must get it right
Is there a light, is there a light
Ooooh, please get it right, and let it shine
Is there a light, is there a light
Ooooh, please get it right, must get it right
Is there a light, is there a light
Ooooh, please get it right, must get it right
Is there a light, is there a light
Ooooh, please get it right, please get it right
Is there a light, is there a light
Ooooh, must get it right, must get it right

(Ooooh, ooooh, must get it right)
