I didn't mean to cause you pain  
I didn't mean to cause you trouble  
I never meant in any way  
To be a weight on your mind

And all this time I've been so goddamn stubborn  
All this time  
So selfish and unkind

Stay with me, stay with me  
Stay with me, stay with me  
What in the world could make me feel so real?  
Only you can make my life worth living

All this time I've been afraid  
That you would see through me  
That beneath the tricks and traits  
There would be nothing to love

And no one has ever  
Reached so deep into me  
No one has taken me  
So high above

Stay with me, stay with me  
Stay with me, stay with me  
What in the world could make me feel so real?  
Only you can make my life worth living

And it's cold outside  
And I'm on the streets tonight  
If this pain is just an illusion  
Will you show me what's real tonight?

Oohh  
Stay with me, stay with me  
Stay with me, stay with me  
What in the world could make me feel so real?  
Only you can make my life worth living  
Oh, stay with me
