"Sing Out The Love"

She brings the good times
Out of the bad times
And I'm never lonely
Because I know she's mine

And so I sing, sing
Sing out the love
Love, love in my heart

Watching our love grow
When we're together
It's such a good love
It's gonna last forever

So I sing, sing
Sing out the love
Love, love in my heart

I was walking through
Darkness, darkness
Looking for the light
Then she came and
She touched my hand
Now she's become
My whole life, oh, oh

Taking it easy cause
We've got each other
We've got the?
I'm feeling good in love

Cause I sing, sing
Sing out the love
Love, love in my heart
I'm gonna sing it out
Sing, sing, sing out the love
Love, love in my heart

I was walking through
Darkness, darkness
Looking for the light
Then she came and

She touched my hand
Now she's become
My whole life, oh, oh

She brings the good times
Out of the bad times
And I'm never lonely
Because I know she's mine

And so I sing, sing
Sing out the love
Love, love in my heart

You know I love her so
So I sing, sing
Sing out the love
Love, love in my heart

I'm gonna sing it out
I'm gonna sing, sing
Sing out the love
Love, love in my heart

Come on and sing it out
Sing, sing, sing out the love
Love, love in my heart
