[Bonus track]

Raiders in a dark march  
Are coming down from the sky  
To seek our flesh and gold  
They are waiting for the night

Demons from North Lands  
Loneliness fills the Earth  
No rest and save at home  
No god can hear my call

But until we meet  
I'll remember your eyes  
And until the end  
They will fight by my side  
And they will never see our death  
Together we'll triumph

Legend of immortals  
Was written in this sacred lands  
Although the Evil comes,  
They'll never take our lives
