"Procession Of The Black Synod"

The black procession's inexorable strides into the void
The dark, endless void...
So step into the void
Orgiastic mass of the fallen ones liturgical path to the
void
The dark, endless void...
So step into the void
The black synod sieges in the hollow flesh seal and key
to the void
The dark, endless void...
So step into the void

Secrets of the miracles miscarries the skinless foetus
Carrying his arms in the shape of his own death
Scars deep into her cunt
Litany of limbo uterus usurped
Hallowed path to an unstoppable nothingness

Evangelized through sodomy, obey the synod, I am
your God...

The black synod sieges, the black synod judges
The black synod reveals, the black synod is all

Holy gifts of the excrements, delicacies of your God
Erotic fall from grace for the one with understanding
Fertile fester festivity
Incense raped with cum burn between the foul prayers
The burning plague of the self walled-up soul

Evangelized through sodomy, obey the synod, I am
your God...

Deformity of belief gambit of your God
Sado-evangelists praise the purity of horrors
Organic blasphemy, semen idolatry
The endless void opens...
