Oh Satan hear my call  
As I raise the glass of god  
Where horned demons cummed  
Upon the host of fucking jesus christ  
The priestess read the book  
Of unholy laws and truths  
Whores are fucking around  
As I kill the new born one for the goat

Sodomise their god  
Cum in the holy chalice

One by one the witches  
Drink the fiendish cum  
Obsculum obscenum  
The goat screams though the eternal night  
The priestess read the book  
Of unholy laws and truths  
Whores are sucking the goat  
He cums his hate on the bonded jesus christ

Upon his throne the god of the flesh laughs  
Priestess and whores and demons  
Dance and fuck under the moon  
The sabbath calls the legions of hell  
As we call the names of the unholy ones

The goat's ritual... black divination  
Anal mysteries of the desecrated  
Unlock the doors of hell  
In the whorehouse coven, to Satan we cum

I stand on the first line, and get ready to kill  
The blood of the pure is feeding my thirst  
The cum of the demons springs from christ's ass

Cast among the sheeps, the pack of Satan's breed  
Howling under the stars, now our time has come
