Lady please unlock your door
Let them know I've come ashore
My water's sour
Worms are bread
Sleepless nights in sleepless beds
She said baby stay with me

I'm the deep sea darkness far and wide
Sexually not satisfied
She said baby take me now
Here I come

And I'm walking on water
Towards the shore

I've played chess with Davy Jones
He stripped me to my skin and bones
She said baby I'll save you
And I'm walking on water
Towards the shore

Here I come
And I'm walking on water
Towards your door
