I knew a boy once who needed shelter
She put her arms around him
She couldn't help it
Will the rosary swing for me tonight

Do you see that garden
Those heavy roses
There 're all the secrets baby I never told you
Will the rosary swing for me tonight

Will the rosary swing for me tonight
And she said I think so
(C'm on and swing away)

Do you see that garden
Those heavy roses

There are all the secrets darling I should have told you
Will the rosary swing for me tonight

Will the rosary swing for me tonight
And she said I think so
(C'm on and swing away)

Go placidly emits the haste
And live your life filled with grace
The rosary will swing for me
The rosary will swing for me tonight
And she said I will always love you
