So you could wipe the smile from my mouth  
Trim it to the board up treehouse  
Well this is mended but less of me  
And after I said it and gone  
Then your heart starts to crave it all  
Crawling beneath  
And you never crawl on my knees  
You sped up the pain that bleeds  
Never let me crawl around you  
Never let me fall before you  
After all I'm the one that claimed you  
After all I'm the one that claimed you

Now that I took your heart  
Burning down you know I'll burn you all  
Crawling beneath  
And I hate to love you all  
Back in the hammock up against the wall  
I'm giving up on fighting  
And you never crawl on my knees  
You sped up the pain that bleeds  
Never let me crawl around you  
Never let me fall before you  
After all I'm the one that claimed you  
After all I'm the one that claimed you  
After all I'm the one that claimed you  
What about the one that sent you off  
After all that made you fall
