Are you alright my dear  
Are you alright for me  
Right now I'm trying patiently  
Right now I'm trying patiently  
Are we breaking, are we breaking  
Down are we breaking down this time

Well I'll call you up every day  
I call you all that I can  
Understanding everything that I could ever hate  
For now I understand, understand  
Are we breaking, are we breaking  
Chasing down and almost breaking  
Are we breaking, are we breaking  
Down are we breaking down this time

Are you alright my dear, are you  
Are you even in my nightmare  
Are you, are you afraid of me  
Right now, right now we shouldn't be  
Hey well you shouldn't be  
Almost there, I'm almost scared  
I am the hating kind  
Are we breaking, are we breaking  
Chasing down and almost breaking  
Are we breaking, are we breaking  
Down are we breaking down this time
