Waving, waving, ain't got much to say  
Satan, save our souls, even?  
? too much talking and too much?  
And I don't even remember leaving  
That's the problem you say  
I feel so scared  
But hell I'm over it by the time that I leave town  
Even you won't lie  
Even you won't lie you know  
Waving, waving, waving you away  
Ain't got much to say, never hear me anyway  
I wish that I didn't care, I wish you did  
I've been evil misunderstood  
And you should hate me if you could  
I feel so scared  
But hell I'm over it by the time that I leave town  
Even you won't lie  
Even you won't lie you know

Satan, saving everyone  
Waving, waving but he won't come around here  
Been mistreating myself and everyone  
It's the problem you say  
It's the problem you say
