You arrived in the rain
When you left, exactly like you came
Although, I stay
Even I don't feel like I belong
All the names
All the pain you've got never seem the same
All the names
All the pain

We're the same, I never came
I'll stay
Cause I'll pray
Felt like I was leavin' when you came
Change of faith and stay
I won't lie for anything
All the names
All the fame
We're the same, I never came
Don't belong, not to anyone yet
You sing along
But it ain't your song
You look sorry and you don't make a sound now

I'll stay in the car
All alone, where the other humans are
Feel safe beneath the bar
To when it comes, 'til it's all done
All the names
All the pain
We're the same, I never came
Don't belong, not to anyone yet
Just sing along
But it ain't your song
You look sorry and you don't make a sound now
