Have you ever swung with Jesus  
Have you ever hung with anyone who cares  
All I know is when you need us  
I can't say I'll stick around or care

Cause I'm prepared for the worst  
You scare me sober  
Hateful and humble now  
Help me get over

So the problem lies with this  
Well I can't see her, she still tortures me  
I'm only harmless, but I mean it  
So I won't say a word before I leave

Cause I'm prepared for the worst  
You won't scare me sober  
Hateful and humble now  
Help me get over

There's pain inside, wasting time  
Can't decide why I tried, why I cried  
I'm so humble beside you  
I'm so humble beside you  
Just can't stand, which one is worse  
Which one is colder  
Hateful and humble now  
Help me get over
