Chorus:

Never used to be like this  
Said it never used to be like this  
Used to be able to trust you  
Planned my life around you  
I can't stand  
What's left of us

Verse 1:

I wanna know  
Is this the end  
I gotta know  
I can't pretend

Chorus:

Never used to be like this  
Said it never used to be like this  
Used to be the one you came to  
Every time you fell through  
I was there to pick you up.

Verse 1:

We used to be  
Good together  
They used to say  
That were forever

Chorus:

Never used to be like this  
And it never would have been like this  
All we do is just break up  
Afterwards we make up  
We don't know  
How to let it go

If I let you go what would I do  
I can't see my self girl without you

Verse 2:

I tried my best  
It wasn't enough  
What do I do  
I'm stuck in the dark

Chorus:

Never used to be like this  
And it never would have been like this  
If you hadn't let your friends  
Talk about your man  
You wouldn't be hear doubting me

Verse 2:

I've given all my time babe  
I've given all that I got  
There's nothing left to give

Bridge:

We just keep going back and forth  
It's time to get on separate roads  
No more thinking what could have been  
It wasn't, it ain't gonna be  
I can't keep, wasting all my time  
Pretending girl, like I am blind  
I gave all I had to give  
There's nothing left to give

Chorus:

And it never would have been like this  
All we do is just break up  
Afterwards we make up  
We don't know  
How to let it go

If I let you go what would I do  
I gotta start a life girl without you, you
