Yeah I keep dreaming  
That I have it all  
Oh, I'm still craving  
To have you by my side  
I know our love is fading  
But soon it will shine.

And I can't see today  
And I can't see tomorrow  
Your burning out my head  
And in my brain it's going wrong  
And I will live today  
And I will live tomorrow  
No matter what is said or done.

Even if it's going wrong  
Even if it's going wrong  
Even if it's going wrong  
Your burning out my head

I keep searching  
But soon we will shine.

And I can't see today  
And I can't see tomorrow  
Your burning out my head  
And in my brain it's going wrong  
And I will live today  
And I will live tomorrow  
No matter what is said or done.

Even if it's going wrong  
Even if it's going wrong  
Even if it's going wrong  
Your burning out my head...
