Under my soul, I hide, chasing emotions
Can't you see?
If I let it go, will we reveal a sign of devotion?
All you feel

Sometimes there's a moment
Sometimes we don't see
Now we stand to frighten, scared to believe

Now I wait for you
Till you wake me, from my sleep
And I'll wait for you
Let my voice be, yours to keep

The touch of your hand, on me
A night everlasting, comes too deep
Don't make me wait, for what I need
This passion is burning, deep in me

Sometimes there's a moment
Sometimes we don't see
Now we stand to frighten, scared to believe

Now I wait for you
Till you wake me, from my sleep
And I'll wait for you
Let my voice be, yours to keep

Now I wait for you
Till you wake me, from my sleep
And I'll wait for you
Let my voice be, yours to keep

Wait for you
Wait for you
