These living quarters are off limits to you  
These guarded borders are all subject to choose  
Passive not my tone of voice no way  
Not my choice, here to make a point

Inside - you will find all that you need  
In the den of thieves  
Inside - you'll always find ecstasy  
In the den of thieves

This propaganda can be hell against you  
This four leaf clover can be lucky for you  
Freedom and fortune waits for all time to  
Climb the wall and watch the old ways fall

Inside - sleep always comes easily

Radical changes are there pushing you through  
Severing ties a big decision for you  
What will you do

Power, by rank and file, you must learn to smile  
Lonely in the wind

Inside - things aren't always what they seem
