This was all an act  
A poor example of deception  
Now I'm falling backwards  
Off this bridge you built

The clocks are all telling us it's our time  
(It's our time)  
It's our time to shine  
To face these fears with our  
Heads against the walls  
(Were all vultures)

Now as the blood pumps  
Through your veins  
We sit silently alone for an awhile  
Before it become contagious

Come on baby I'm like a disease  
Were sleeping under burning skies  
Just to pass the time  
Now you've got me in a chokehold  
And you won't let go

(Let go)  
Steady now, I'll hold you hand  
Keep you head above the water  
(Consuming)  
Its consuming, it's over  
We've lost all hope, I can see halos

We'll dance to the sound of  
One thousand sirens to put us too sleep

Were sleeping under burning skies  
Just to pass the time
