I've withered away  
to these gray skies  
a smile held captive for too long  
I'm forever searching  
for the words that neglect me  
will you neglect me  
fight the image

this is the march of the fallen  
the serpents can't even touch us now  
we've lost all sight of direction  
we're reaching relief  
while aspiration crowds our thoughts

crawl out of the shadows  
you coward show us the image  
you've tried to create

your voice drowned out  
its gone you were so contradicting

this is the march of the fallen  
the serpents can't even touch us now  
we've lost all sight of direction  
we're reaching relief  
while aspiration crowds our thoughts

(I'll carry it out, we'll take this day by day)

the light starts to tremble

and I'm growing weary  
I'll reach imperfection  
I'll reach imperfection

we've opened up inside  
it's not too late  
we'll let our mind take us  
to a better place  
and when we arrive it will be  
The Malice Of The Moment  
the end of the road is a vage

distance away

you may find this overwhelming  
we all get lost sometimes  
there is no easier way out  
with no end in mind  
take this all  
take this day by day  
oh, please don't lose sight of direction  
you'll see the light one day

resist the hopeless  
we've fallen asleep this time

the light starts to tremble  
and I'm growing weary  
I'll reach imperfection  
I'll reach imperfection
