Tear me down, stimulate my mind  
Wake me up from this motionless sleep

The passion has died  
But the pain still remains  
To push it's way through these veins  
Kicked down to the lowest point

I feel the dirt beneath my teeth  
A pile of blood, sweat, tears and grief

I've seen all I can see  
You're eyes they beg me not to leave  
Not quite a standstill  
But we're moving slowly

There is no love  
No shame  
To reap your name  
These idle hands will keep me still

I feel the dirt beneath my teeth  
A pile of blood, sweat, tears and grief

I've seen all I can see  
You're eyes they beg me not to leave  
Not quite a standstill  
But we're moving slowly  
Towards the end  
Sink into me  
Learn to love what we've lost  
Sink into me

After all is said and done  
These scars were never meant to heal  
There's no hope for us

We've all seen the coldest suns  
The ending scene  
I pace circles around this hole  
Your eyes they beg me not to leave

We're not quiet at a standstill  
We're not quiet anything  
We're moving slowly towards the end  
Sink into me

Learn to love  
Learn to love what we've lost  
Sink into me
