I wanna be in a pop punk band
The kind that ride in a pop punk van
I know what I'm gonna wear
I'll have spikey pop punk hair

Bore us, bore us, get us to the chorus
Just can't stop it, got it at hot topic
No need to read the lyric sheet
It's the same old song, same old harmony

I'm gonna find me a pop punk girl
It's not tough in the pop punk world
Our love, it can't be wrong
I wanna sing like Tom DeLonge

Bore us, bore us, get us to the chorus
Just can't stop it, got it at hot topic
No need to read the lyric sheet
It's the same old song, the same old harmony
I got it at hot topic
My parents dropped me off and paid for it
Get all my views from MTV
I got it at hot topic
My parents dropped me off and paid for it
Pre-packaged punk conformity
So fuck me

Bore us, bore us, get us to the chorus
Just can't stop it, got it at hot topic
No need to read the lyric sheet
It's the same old song, the same old harmony
