

Arrested Development "Children Play With Earth"

Visit "[Children Play With Earth](#)" on MotoLyrics.com

Okay

The way kids are living is 100% European
African boys and girls
Set down your Nintendo joysticks right now

Unplug the television
And make way for an old vision
Which will now be a new vision, yes
Headliner, lay the foundation

Dig your hands in the dirt
That's right
Children play with earth
That's right

Dig your hands in the dirt
That's right
Children play with earth
That's right

Dig your hands in the dirt
That's right
Children play with earth
That's right

Dig your hands in the dirt
That's right
Children play with earth
That's right

Dig your hands in the dirt
That's right
Children play with earth
That's right

Dig your hands in the dirt
That's right
Children play with earth
That's right

Dig your hands in the dirt
That's right

Children play with earth
That's right

Dig your hands in the dirt

That's right
Children play with earth
That's right

Dig your hands in the dirt
Children play with earth

Gain knowledge of the big
But small earth around you
Dig your hands into the dirt
The dirt that made you

Get acquainted with the earth
The earth that eventually will take you
And the world that hopefully
Will appear to wake you

Children, play in the fields
Play in the grass, climb Mr. tree
Get to know each branch
Give it a name

For the branches resemble the many decisions
You will have to make in life
Eat of the earth children, grow an apple tree
Taste the apple, communicate
Watch and listen to the neglected mother of all
Short, tall children play with earth

Eat rhubarb wet from the rain
Beautiful fruits all the same
Pears, oranges and grapes from the vine
Children it is the earth's time
