We walk our ways and you're not by my side
You said baby I will miss you
Don't leave can't live without you

The moment we kissed and then said goodbye
I said baby I will write to you
Don't worry I'll get back to you

Chorus
When I get out of my mind
And my heart starts to cry inside
I just think of you and I'll...
Never Be Lonely

When I get out of my mind
And my heart starts to cry inside
I just think of you and I'll...
Never Be Lonely

Verse 2

We walk our ways and you're not by my side
You said baby I will miss you
Don't leave can't live without you

The moment we kissed and then said goodbye
I said baby I will write to you
Don't worry I'll get back to you

Chorus
When I get out of my mind
And my heart starts to cry inside
I just think of you and I'll...
Never Be Lonely

When I get out of my mind
And my heart starts to cry inside
I just think of you and I'll...
Never Be Lonely
