"Hold"

Visit "[Hold](#)" on MotoLyrics.com

Far off into the distance
Holding on inside
Nobody to hear me scream
Nobody to hear me cry
Too close to no nobody
Too far to hold onto life
There's nowhere to run
And onwhere to hide

Hold onto yourself
Hold onto the life that u live
Hold onto me
And neva let go
Don't be afraid
To face the dangers each day
Hold onto me
And neva let go

Too heavy to fly away
Too light to try to die
Too false to live no truth
Too trughful to deny
Too weak to live
Too strong to hold back now
Too many answers
To ask the qusetion how

[Chorus]
Don't deny that u live
Don't deny that u breathe
Just hold onto me
Don't lie 'cos ur real
Don't lie u can deal with this
Hold onto me

[Chorus][x2]
