I will grow to hate everything
Everything that comes across my life
There's nothing there to love anymore
It's either hate...or die
They say don't forget who you are
I can't take it
I'm on my way to hell
But now i am your shit
Give or take
Live or die
Everyday's another lie
Turn me on
Turn you off
Disintegrate
Disintegrate
The time has come to get for me fucking high
Kneel before me, either that or die
My main obsession hits your face
Now it's time you self-embrace
But they say don't forget you the fuck you are
You just can't take it
So once again, you're on your way to hell
For now, i am just your shit
Now i am your shit
Now i am your shit
Now i am your shit
Now i am your shit
Now i am your shit
Now i am your shit
Now i am your shit
Now i am your shit
Now Disintergrate
