My News Year's Resolution

Is not to invent something that would rid the world of
pollution

I know it would be nice but I don't have the skills to do it

And though I have love and hope and am confident

I'm not sure I'd be a good president

My New Year's Resolution

Is not some long lost solution

To save the world from starving

It sounds rather neat and charming

But some people don't give contributions even if I do

Darling

For New Years I'm not planning to make promises I

can't keep

I'm not promising to make quotations oh so deep

To be brilliant beyond myself would just be a lie

Reality is real, I can not deny

My New Year's Resolution is I will be I
