

Art Vs. Science

"Before You Came To This Place"

Visit "[Before You Came To This Place](#)" on MotoLyrics.com

I've been feeling
All this motion
I've been sailing
For a lifetime or more
With my ladle
Scooping galaxies
Keep on sailing
We're gonna see

That I knew you
Before you came to this place
The sky knew you
Before you came to this place

Salt and water
Don't you feel alive?
Move together
Something's got a hold and it's never letting go

And I knew you
Before you came to this place
The sky knew you
Before you came to this place

The earth cast out the moon
Before you came to this place
And I knew you
Before you came to this place

Who are we and where we go
We are we are the same
Round the sun and around the sun
Round and round again

And I knew you
Before you came to this place
The sky knew you
Before you came to this place

The earth cast out the moon
Before you came to this place
And I knew you

Before you came to this place
