Deranged mind, a life of crime  
It's time to die in a supreme way

Reaping lives after demise  
Requires a fine tactic of suicide

Ingesting a toxic brew in lethal dose  
A studied mix to fermentate in stomach  
The rotting cocktail will emanate a deadly gas  
Once dissected in autopsy's procedure

Killing after death [x4]

Lying on the stretcher  
Before the rigor mortis  
The corpse is still brewing  
And getting ready to erupt

Scalpel down!

The Abdomen  
Is fully bloated  
First incision  
Unleashes the gas  
The three doctors  
Lying on the floor  
Gaseated  
The masterpiece is done!
