Hidden behind on the internet anonymity
A perfect place where to unleash my cannibalistic wish
Through a delirious post written on a website's forum
I need a voluntary victim, sure there will be one

Let me taste your flesh
Let me eat you alive

To my surprise I received an answer to my crazy ad
Another man with similar cannibal tendencies
He was too tired of his misunderstood life
Was going to sell it all and meet me for the final gory
feast

In the dining-room
Sit down for the binge
I already cooked
Some parts of his leg

An ear...
His fingers...
Feet...
His dick...
After we ate it all
He pronounced a wish
Ye wanted me to eat
The rest of his body

So I gave him death with deep cuts on his neck
Then I did cut his body off into pieces for the fridge
So then I'll have meat enough to satisfy my hunger
I videotaped everything so I could later masturbate
with it

Let me taste your flesh
Let me eat you alive
