She's the woman of my life, I love her to the bones

I wanna make her mine forever and no one else's

So I'll prepare a special dinner just for both of us

With a very unique dish to join us for all eternity

She's hot tonight... In my oven! [x4]

After having sex in the most passionate way

I took a knife and gave her death in the sweetest form

Carved her up in pieces and got them to the kitchen

To cook her lovely flesh, then making her a part of me

She's hot tonight... In my oven! [x4]

She's hot tonight... In my oven! [x4]
