Fire, end of disease  
The gloomy shadows are now released  
And in the twilight I fear my sight  
But I am mad, and yes, I like kingdom of monsters,  
chapel of ghouls  
Devastating the land, delirium of pure destruction, I am  
deep insane  
My eyes are full of blood, soon it will be my hands  
Kingdom of monsters, chapel of ghouls, my pleasure !  
I am back, more evil than before  
I am cruel, my heart is down the floor  
Don't ask me why, I tell no lie  
I am the son of solstice.
