Lights on the ground, shining high  
Make me feel uptight  
Driving so fast, damned so fast  
Adrenaline's in my head  
Thinking about you, I feel confused  
Crying out my pain  
Now tell me what's the secret of the night  
Yeah!  
Strive I feel in trouble tonight  
Strive earth is shaking through spine  
Strive I'm on a point of no return, no!  
You live until another day  
You run until the reach for the edge  
Don't you try to get a rest today  
The things you have done  
Will drive you to a world of insanity  
Lights on the ground, raging high  
Make me rule the night  
I'm driving too fast and never rest  
This is a bloody hell  
Now tell what you want, 'cause I don't care  
The struggle never ends  
I'll tell you what's the secret of tonight  
See my eyes, that money cannot buy  
Pay your price, and eave this world of lies
