

## Arthemis "The Traveller"

Visit "[The Traveller](#)" on MotoLyrics.com

When you've got a dream you spread the power  
within...

I am coming up to your land  
Passing forests and hot desert sands  
And I want to be the pioneer of new worlds  
I've walked through winter storms  
I've ride towards the Sun  
Living my life day by day

I've known all kind of man  
Of all religions and different race  
And I learn something new every day  
Until you live and let live  
Freedom is for all to see  
But the wickedness of the men has created war and  
disasters

On your way you'll find who tells you lies, don't believe  
him  
Looking at the stars you'll find your way

When you've got a dream you spread the power within  
Trying to make it real  
The traveller will ride and help you to catch your star  
To fly and let your spirit free...

[Solo]

When you've got a dream you spread the power within  
Trying to make it real  
The traveller will ride and help you to catch your star  
To fly and let your spirit free...

When you've got a dream you spread the power within  
Trying to make it real  
The traveller will ride and help you to catch your star  
To fly and let your spirit free...
