Excuse me for looking at you that way baby
Baby I just can't help myself
Oh you look so good and you are so sweet darling
I gotta have you for myself
And oh I just can't leave you alone
Baby you really, you really really got it going on

Now can I sit down and talk to you
And tell you how you are really blowin' my mind
Emotions, emotions are overflowing in me
And my heart is beating double time
Sweet baby, Lord let me let me take you home
Oh you really, you really really got it going on, well

Please baby let me hold you in my arms
And lets make love all through the night
And put on, put on put on our favorite movie
Baby you know I'm gonna treat you right
I'm gonna close the door and turn off the telephone
Cause baby you really, you really really got it going on

You got it gonna on, baby put your body next to mine
You really got it going on, now honey your so fine
And a hold it baby let me turn the light down low
We're going to let that let that feeling flow
Oh baby make sweet love all night long
Oh baby really really got it going on
Put your body next to mine, darling
I said turn the light down low let the feelin flow
You really got it going on, oh babe
