"No More Lovers"

Visit "[No More Lovers](#)" on MotoLyrics.com

We won't be no more lovers, we gon' be old friends
We won't be no more lovers, we gonna be old friends
You can help me find a woman, I'll help you with your
man

I was in love with you baby, you was in love with
someone else
I was in love with you baby, you was in love with
someone else
You know darn well that I loved you, and wanted you
for myself

I even tried to love when I knew you was untrue
I even tried to love when I knew you was untrue
You went away and left me, I'll find someone who is
true
