"Someday"

Visit "[Someday](#)" on MotoLyrics.com

Someday, baby, some, some old lonesome day,
Someday, baby, some, some old lonesome day
You know I won't be worried and treated this-a way

When I go in my room, I fall down on my knees and
pray
When I go in my room, I fall down on my knees and
pray
That I have someone to love me, and I wish that you
were here

I have found somebody, some woman that really cares
for me
I have found somebody, some woman that really cares
for me
I mean I found a woman who wants to be my honey bee
