It's just a blip, that's all
Just a head trip, that's all

My big feeling as far as it goes
Plus a big kiss
That's your big surprise

It's just a blip, that's all
Just a head trip, that's all
It's just a blip
Just a head trip, that's all
It's just a brief infatuation

Now we give a lot to realize it
Plus a big kiss

It's your big surprise

It's just a blip, that's all
Just a head trip, that's all

My big feeling, as hard as it goes
You take it from me
The second I know
Working so hard to realize it
It's a big kiss
It's your big surprise

Just a head trip, that's all
It's just a blip, yeah
Just a head trip, that's all
It's just a brief infatuation
