Did they trap the wolves?  
So they rained it out  
Do I sing out loud?  
Tears drop..  
The high hope city  
Or rags who is now  
Behaving one  
Is that it now?  
Caught in itself, in its own  
Ain't it swell?  
Being so tired is trying to be inside itself

You've been dead something they blew me over  
Been sure good, it sure was  
But this kinda did  
Where I was so candid  
Where we ever there?  
Where we ever there?  
Cuz your friend did,  
Does that mean that anyone who, me or mine?  
Did I knew got nervous trying  
Man like me  
Never understood one  
A kid like you  
Could never understand  
Did I knew
