We are a see through love  
Seeing through sun and haze  
I see through to the totally clear end

If you appear within the seconds of  
the word imagination  
If you appear the word allows a man to  
see to those appearance  
If you appear what's airy  
sends a friend to my imagination  
The kind of town where it's a sin  
to be inside and outside for them  
Around the side of the house where  
the side that you can get up on it  
When every inter-call decides a well  
that's up to go off

We are a see through love  
Seeing through sun and haze  
I see through to the totally clear end

It's well to know that since it gives a name  
you get to grow up with him  
I finish all supposed where it's a good time  
floating where so much up  
The Kind of love that I can only find in my imagination  
The Kind of heart that I can only have in my imagination

We are see through love  
Seeing through sun and haze
