That's us, before we got there
That's morning time, before we got there
That's morning time, before we got there
That's morning time, before we got there

I just want to be, wherever you are
Hard as I can be, it's never too hard
With this our love to see, by it's own light
Love inside of me, it's working at night
Seconds before I see in the dark

Seconds turn, this time that, it's so
Coming to, seconds turn, this time that I
Such fun to be with
It's a big old world
With nothing in it
I can't wait to see you
Another minute

It's a wild combination, it's a wild combination
It's a wild, it's a loving you baby
It's a talk in the dark, it's a walk in the morning (x2)

That's us, before we got there
That's morning time, before we got there
That's us, before we got there
That's morning time, before we got there

For a price, push up and be part of it all
Surfing, swimming

(It's a wild combination)
That's us before we got there
That's morning time before we got there
That's morning time before we got there
That's morning time before we got there

That's you, me, on self-timer
We're leaving at five in the morning
We could get better mileage
That's you, in the pool, you're a swimmer

What a winner, you peek out

That's us before we got there

That's morning time, before we got there

That's us before we got there

That's morning time, before we got there

That's you, me, on self-timer

We're leaving at five in the morning

We could get better mileage

That's you in the pool, it's a swimmer

What a winner, you peek
