There's a place out on the edge of town, sir  
Risin' above the factories and the fields  
Now ever since I was a child  
I can remember that mansion on the hill

In the day you can see the children playing  
On the road that leads to those gates of hardened  
steel  
Steel gates that completely surround, sir  
The mansion on the hill

At night my daddy'd take me and we'd ride  
Through the streets of a town, so silent and still  
Park on a back road along the highway side  
Look up at that mansion on the hill

In the summer all the lights would shine  
There'd be music playin', people laughin' all the time  
Me and my sister we'd hide out in the tall corn fields  
Sit and listen to the mansion on the hill

Tonight down here in Linden Town  
I watch the cars rushin' by home from the mill  
There's a beautiful full moon rising above  
The mansion on the hill
