"Thousand Days Of Yesterday"

The world around us
Hangs in doubt
You face a crime that
We'll hear about
To pay the cost
Would never be the same
Eternal lovers
We're not to blame
There's no mistake
There's no refrain
The same surroundings
That stood
Are here again
This time...
As I look around
You can't be found
To lose you
I'd rather see the endless time of space
Go passing by
This time around
To lose you
I'd rather see the endless time of space
Go passing by
Fly
