### "Sick And Beautiful"

All the world's your ashtray, i'm just your marlboro.  
Light me up then butt me, you're sick & beautiful.  
It's bamby meets godzilla, a 3d free for all. set me up  
then stomp me, you're sick & beautiful.  
Squeeze me like your lemon, then mix with alcohol.  
shake me hard then down me, you're sick & beautiful.

You're gravy with gasoline & wicked with whipping  
cream.

I need a quick fix, i'm flashing like an instamatic,  
crusted like a worn out penthouse, your junk is  
habitual, you're sick & you're beautiful.

Bounce me hard & dunk me, i'm just your basketball.  
lay me up then heave-ho, you're sick & beautiful. peel  
my bandage slowly, it's psychological.

You're napalm with novocain, a kite in a hurricane.

(chorus)

Leave me in a ditch like roadkill, or maybe we could  
switch the driver. have some mercy and kevorkian me  
to sleep.

You're cockroach with cabernet, but taste like a milky  
way. you're gravy with gasoline & wicked with whipping  
cream.

(chorus)
