

## Artificial October "Sundown"

Visit "[Sundown](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You're about to leave  
And I'll be forced to let you go  
I'll let you choose  
The way you want to go

And I'll be chasing memories  
Until my world rotates to a day  
Another day

CHORUS:

Sundown  
We're looking at sundown  
Please do stay with me  
Before the dusk comes out

Sundown  
You're leaving at sundown  
I'll keep all the memories  
They won't fade away

I do know that it's hard  
I know it hurts so much  
To say goodbye  
"Goodbye."

I'll be drawing all my strength  
From these guitar strings  
But this old wounded heart in me  
Cries aloud for you...  
For you (8x)

[Repeat CHORUS]

\*ADLIB\*

Don't go. (6x)

[Repeat CHORUS]
