

## Artificial October

### "The Challenge"

Visit "[The Challenge](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Fear of tomorrow - we're waiting for the final crash  
The lost illusion - there ain't no light for us to see

Our gods commandments - we once forgot and threw  
away  
Humiliating - our lives on earth will fade away

A hopeless challenge - we're on our knees  
Time's getting nearer  
We thought we were wise but we cannot survive on this  
earth

We challenged nature - we made it fall instead of rise  
Our mighty empire - is surely built on sinkin' ground

A hopeless challenge - we're on our knees  
Time's getting nearer  
We thought we were wise but we cannot survive on this  
earth

Innocent dreams turned to nightmare  
Palace of glass, turned to dust  
Day turned to night, don't you care  
Life turned to death, forever lost.
