So the pain begins
As the music fades
And I'm left here with
With more than I can take

If you lift me up
Just get me through this night
I know I'll rest tomorrow
And I'll be strong enough to try

When the sky clears
And all is said and done
I will realize
That we all need someone

If you lift me up
Just get me through this night
I know I'll rest tomorrow
And I'll be strong enough to try

So when you see me crashing
And there's nowhere left to fall
Will you lift me even higher
To rise above this all

If you lift me up
Said if you lift me up

Said if you lift me up
Will it be higher

When you see me crashing
And there's nowhere left to fall
Will you lift me even higher
To rise above this all

If you lift me up
Said if you lift me up
If you lift me up
Just get me through this night
