Eternal bliss and light  
I have come to greet you  
The shining stars are right  
I've come to arouse you

Affection (x4)

I want to eat you - gastrophiliac  
Lubricated / masturbated (x2)  
(masturbated, lubricated)

Wonderful heat within  
Can you see the love pain  
I stroke your soft skin  
A perfect love shame

I have an affliction  
It's called affection  
A shitty addiction  
Love's rusted inscription (x2)

I really care, i really do  
Love is rusted

Powerful heat tonight  
Can you feel the love thing (x2)  
Evil do'ers all around  
I must get things right  
Love is healthy and sound  
A perfect love night

I have an affliction  
It's called affection  
A shitty addiction  
Love's rusted inscription (x2)

(rusted inscriptions, shitty addiction, called affection,  
rusted reflection)
