Mind is a host to a dead man's ghost  
I'm trapped in this cell and i can't break the spell  
I've burned my fingers- i'm the death that lingers  
When i come around death screams resound

The sun it shines out from my fucking ass  
It's hate, it's blood, it's black and it's death (x2)  
It's hate, it's blood, it's black and it's death (x2)  
You stare at me to see my soul  
What is it you want? i just don't know  
My ignorance of life has lost it's ideals  
This bitter emptiness is all that i feel

The sun it shines out from my fucking ass  
It's hate, it's blood, it's black and it's death (x2)

I was forged in blood, i'm the jew last shot  
I'm feeling quite erect, bloody dick it's perfect  
I burn the peace of a heaven to be  
I face the skumfuk and it just seems out of place

The sun it shines out from my fucking ass  
It's hate, it's blood, it's black and it's death (x2)  
It's hate, it's blood, it's black and it's death  
It's black and it's death
