This is the last calling, to save your self.
the last breath is on your opinion, abandon the
darkness!
Come to life, fight for a better life, DRUGS FREE!
Be who your fucking be, and rise above this this

The straight edge lives in me, i have no faith in you
I live my life drugs free, i can not fucking trust you!
i live my life drugs free

I can not fucking trust you
Where is your control now,
i got mine
Somebody light up the lights of fure (i'm not sure what
they say here)

They believes (...and here)

I got the power to change my future
..... (and here :p ...)
The gates of a new I are open
Waiting to wait

You thingk you now me, you have no fucking clue!

I AM YOUR WORST FUCKING NIGHTMARE! x4
